Summary Profile

Results-driven Software Engineer with over 5 years of experience in full-stack web development. Specialized in building scalable web applications using modern frameworks and cloud technologies. Passionate about optimizing performance, improving user experience, and implementing best coding practices.

Education

Bachelor of Science in Computer Science
XYZ University, 2015 - 2019
GPA: 3.8/4.0 | Dean's List | Coursework: Data Structures, Web Development, AI & Machine Learning

Experience

Software Engineer | ABC Corp | Jan 2020 - Present
- Developed and maintained React-based web applications serving over 50,000 daily active users.
- Led a team of 5 developers to build a microservices-based architecture using Node.js and Docker.
- Optimized API response times, reducing latency by 40% through database indexing and caching strategies.
- Integrated CI/CD pipelines, reducing deployment time from 2 hours to 15 minutes.

Technical Skills

Languages: Python, JavaScript, TypeScript, SQL
Frameworks: React, Next.js, Node.js, Flask
Databases: PostgreSQL, MongoDB, Firebase
Cloud: AWS (Lambda, S3, EC2), Docker, Kubernetes
Tools: Git, Jenkins, Webpack, Redux

Soft Skills

Problem-Solving, Communication, Leadership, Team Collaboration, Critical Thinking

Projects

Automated Resume Parser
- Developed an NLP-powered resume parser using OpenAI's GPT API and Flask backend.
- Achieved 95% accuracy in extracting key information like education, experience, and skills.
- Implemented OCR for handling scanned PDF resumes and enhanced data preprocessing.

Real-Time Chat Application
- Built a WebSocket-based chat app using React and Node.js, supporting over 1,000 concurrent users.
- Integrated authentication via Firebase and implemented end-to-end encryption for security.

Certifications

AWS Certified Solutions Architect - Associate (2022)
Google Cloud Professional Developer (2023)
Certified Kubernetes Administrator (CKA)
